ACTIVITY

1 - Complete as lacunas das discussões técnicas abaixo usando a forma correta do adjetivo entre parênteses (comparativo ou superlativo).

1. Deploying to Edge: *"We should use Cloudflare Workers because they have a LOWER (low) latency than traditional serverless functions."*
2. Choosing a Database: *"Of all the databases we benchmarked, Redis was THE FASTEST (fast) one for caching session tokens."*
3. Refactoring Legacy Code: *"The new microservice is definitely BETTER (good) than the old monolith, but the network overhead is WORSE (bad) than we expected."*
4. Framework Security: *"Framework A is MORE SECURE (secure) than Framework B because it has built-in protection against SQL injection."*
5. Project Priority: *"Fixing this critical memory leak is THE MOST IMPORTANT (important) task in our backlog right now."*
